

## **Paper/PDF Newsletters**

Our newsletters contain up to date information about conservation issues throughout the Sunshine Coast. To read any of our newsletters, just click a link below to download the digital file. Hard copies of our newsletters are available at our outreach booths, and at various locations throughout the Coast including Libraries, doctor's offices and cafes.

[SCCA Newsletter 28: Fall 2017](#)

[SCCA Newsletter 27: Summer 2016\\*](#)

\*Correction: The printed copy of our Summer 2016 newsletter contains an article on Chapman Lake. In that piece the price of the syphon purchased by the SCRD in 2015 was quoted as \$175 000. That figure is outdated - the actual cost was \$154, 398. The SCCA apologizes to the SCRD and the public for this error.

### **CORRECTION NOTICE**

Re: Fall 2009 Newsletter

Please note that the figure given for the McNair Creek IPP penstock (A Trip to Toba Inlet, page 2) is not correct. The penstock length given by Renewable Power Corporation is 3.2 kilometers. The SCCA apologizes for any inconvenience related to this error. - Editor
