

The SCCA was awarded participant funding from the Canadian Environmental Assessment Authority (CEAA) to review the proposed draft Application Information Requirements (dAIR) for the [Burnco Aggregate Project](#) (a proposed gravel mine at the mouth of McNab Creek).

The SCCA contracted Schick Consulting and Stamford Environmental (Schick- Stamford) to review the dAIR with respect to fisheries and aquatic habitat. [This review](#) was submitted on October 11, 2013.
