

The SCCA is presenting an **Environmental Issues All Candidates Forum** for the BC Election of 2017.

Friday, April 21st at 7pm, doors at 6:30

Roberts Creek Community Hall

Please join us to learn about where our area's candidates stand on the environmental issues that matter most to our community: climate change, watershed management, forestry, fisheries, species-at-risk, and many more.

Candidates confirmed:

Kim Darwin, BC Greens

Reuben Richards, Cascadia Party of BC

Nicholas Simons, New Democrat Party of BC

Mathew Wilson, BC Liberal Party

Our team has written a series of questions that will be asked of each candidate - [click here to review them](#). Their responses will be posted here after the event. You can also review the [resource document](#) we sent to the candidates.

Additional questions will be accepted from the floor, so come prepared with your own questions to pose to the candidates.

Help us spread the word by liking and sharing our [Facebook event page](#).

We're pleased to be presenting this year's forum in partnership with the [Roberts Creek Earth Day Festival](#). What better time than Earth Day eve to host this event?! See you there!

The SCCA held All Candidates Meetings on regional environmental issues during the municipal election campaigns of 2002, 2005, and 2008, and 2011.

The 2011 Green Issues Forum was conducted in two parts.

1) All candidates were invited to answer [four questions](#) about watershed management, sustainability, and species at risk. Written responses were posted on this site as they came in.

2) All candidates meetings were held for candidates for the [Sunshine Coast Regional District](#) and mayoralty candidates for the [District of Sechelt](#) and the [Town of Gibsons](#). There was an opportunity for the public to ask questions about environmental issues.

NOTE: *The Green Issues Forum is a public education service of the Sunshine Coast Conservation Association. The SCCA is a charitable not-for-profit society that does not endorse political parties or candidates for public office at any level of government. The opinions presented here are those of the authors and do not necessarily reflect the views of the Association.*
